Pacvac's Superpro battery 700 is an advanced battery-powered design with strong suction, delivering a superior combination of manoeuvrability, efficiency and productivity. The ergonomic configuration makes this one of the lightest and most comfortable battery backpacks on the market.

Recommended Use

Stairs, lifts, transportation vehicles (trains, planes and buses) and daytime cleaning.

The Superpro 700 encompasses the perfect balance of comfort, durability and efficiency, making this machine the number one choice for everyday commercial cleaning.

Recommended Use

Offices, retail (store outlets and supermarkets), car dealerships, stadiums, theatres, education facilities and public buildings (civic centres, museums and galleries).

The Superpro micron 700 boasts a HEPA rated high grade filter that traps 99.999% of fine dust particles. Perfect for health care operations where clean air quality is essential, its sealable disposable dust bag guarantees dust and bacteria are disposed of with minimal exposure to the user.

Recommended Use

Healthcare (hospitals, hospices, health and wellbeing centres, surgeries and general practices).

Pacvac's Superpro trans 700 is designed for use on large transportation vessels which utilise a 400 hertz power supply, such as planes, ships and trains. The lightweight and compact design makes cleaning in confined areas quick and easy.

Recommended Use

Aircraft, cruise ships, military ships and trains which utilise a 400 hertz power supply.
